

# THE BRIGHTON HOTEL

WASHINGTON 8, D. C.

CALIFORNIA AT CONNECTICUT :: TELEPHONE NORTH 7-4430  
August 18, 1958.

Hon. Allen Dulles, Director,  
Central Intelligence Agency.

Dear Mr. Dulles:-

A disturbing matter occurred which may tie in with other facts. (As an editor, I learned how miscellaneous items add up sometimes). This hotel has a large number of Brazil and Venezuela people, on diplomatic or military missions. Sitting on the verandah, my wife said pleasantly to one of several So. American children 8-10 years old, "Where are you from?"

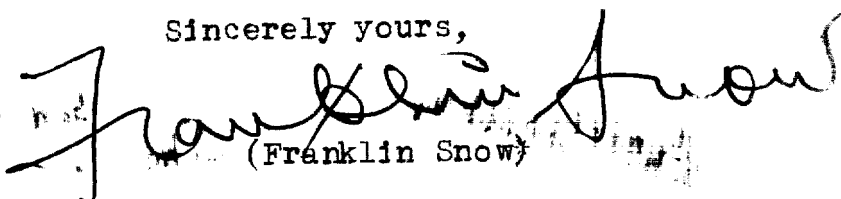

A little girl sneered at her and said, "None of your business" and added in scornful tones - "America, what a place to live in," etc., with allusions to American people, their bad manners and other scornful remarks. This, of course, is of no concern to you. BUT, the basic fact is that these children have learned this from their parents. Sent here on "diplomacy", these So. Americans evidently have a contempt and hatred for this Nation which is so outspoken that their children hear it and reflect this when speaking to Americans. Hence, the diplomatic work we are doing, and the money we lavish on these countries, is a complete waste.

(Your brother out to have better sense than to waste our dollars as he does, when the recipients of it look upon us with scorn, contempt and ill-will, the whole they enjoy our hospitality and probably have their hotel bills paid, indirectly, by the United States. It is a disgrace).

In view of the fact that these brats here so clearly reflect their elders' animosity toward the US, you might be well-advised to spot an agent in this hotel who understands Spanish and Portuguese and who could sit on the outer verandah every night and hear the elders (and children) jabbering in these languages and doubtless ridiculing the US.

It is no wonder they tried to murder Mr. Nixon, when even their babies hate us so violently. The State Dept. might also be interested in this attitude - with a view to shutting down on this huge aggregation of So. Americans now sequestered in Washington, for what reason nobody knows, but certainly for no good whatsoever to the United States. They are a menace to us.

Sincerely yours,

  
(Franklin Snow)
